

"Directing is telling people what to do and seeing that they do it to the best of their ability."

Features / characteristics of Directing →

- a) Initiates action → It is the function of management where actual work starts by giving direction. Managers get the work started in the org.
- b) Continuous Activity → Direction is continuous activity managers has to continuously guide, supervise and motivates their sub-ordinates.
- c) Pervasive → Directing is required at every level of the org. Every manager provides guidance and inspiration to his sub-ordinate.
- d) Flow from top to bottom → Directions are given by managers to their sub-ordinates. Directing starts from top level and flows to lower level.

e) Performance oriented $\rightarrow$ The main motive of directing is bringing efficiency in performance.
Directing helps in improve performance of employees.

f) Human element $\rightarrow$ It involves study and moulding of human behaviour. It improves communication also and it motivate employees to perform their best ability.

$\leftarrow \rightarrow$ Importance of Directing. $\rightarrow$

a) Helps to initiate action $\rightarrow$ The employees in the org. start working only when they get instruction and directions from their superiors. Directing function provides direction to the employee to achieve org. goal.

b) To integrate employee's efforts $\rightarrow$ In the org. number of employees are working at diff. levels and diff. jobs positions. They may have diff. level of authority and responsibility but all are the part of one org. and all are interrelated to each other. So, directing function helps to integrate their efforts.

c) Means of Motivation → Directing function does not mean giving orders only but superior also motivates their sub-ordinates to perform with their best ability.

d) Helps to adapt changes → Generally the employees hesitate in accepting the changes but through directing function the changes can be implemented more easily. Superior help and guide their subordinate to accept the changes.

e) Bring stability and balance in org. → Directing function tries to create balance in the org. Generally when the employees are working at diff. levels they develop diff. attitudes and directing function tries to make balance and stability in the org.

Elements of Directing.

- (1) Supervision
- (2) Motivation
- (3) Communication
- (4) Leadership.

(1) Supervision

- It means instructing, guiding, maintaining and observing the employees while they are performing jobs in the org.
- Super means over and above.
- vision means seeing, so, supervision means seeing the activities of employees from over and above.

(2) Motivation

- Motivation can be defined as stimulating, inspiring and inducing the employees to perform their best ability.
It is a psychological term which means it can't be forced on employees. It comes automatically from inside the employees as it is willingness to do work.

- Features -

- 1) It is a goal oriented process.
- 2) Motivation is an internal feeling.
- 3) Motivation can be positive or negative.
- 4) It is ~~can~~ a complex process.
- 5) Continuous process.
- 6) It changes according to the need of employees.

* MASLOW'S NEED HIERARCHY THEORY OF MOTIVATION
need or desire is a very important element in motivation because the employees get motivated only for their needs and if the needs are fulfilled completely then it is not possible to motivate the employees.

- Maslow need hierarchy theory was based on human needs
- The following hierarchy of five needs are as follows -

1) Physiological Needs → These are related to the survival and maintenance of human life. These needs include basic requirement for survival and maintenance of human life. These are food, shelter & cloth. Physiological need must be satisfied through monetary incentives.

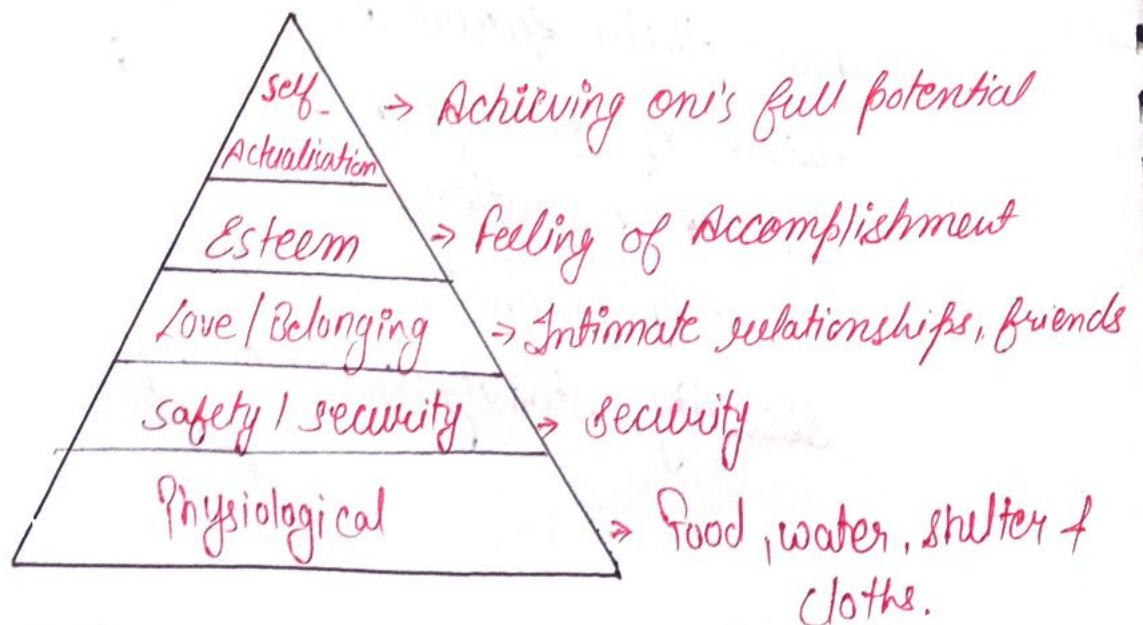

2) Safety & Security needs → Once the present day Physiological needs are fulfilled the people start thinking about their future as they want to secure their future by making sure that in future also they continue to satisfy their Physiological needs. The org. satisfies these needs by providing job security, stability of income, pension plan etc.

3) Social needs / Belongingness / Affection needs $\Rightarrow$ It means the need for natural love, affection, friendship, companionship etc. $\rightarrow$ to fulfill the social needs the managers prefer team work, prefer informal org., through this employees can develop social relationship.

4) Esteem Needs $\Rightarrow$ These ~~are~~ needs are related to respect and recognition when the above three needs are satisfied then people start demanding respect for themselves in a group. It can be satisfied through non-monetary incentives.

5) Self actualisation needs $\Rightarrow$ This need refers to realising or reaching to the aim of your life. Once the employees becomes what he wants to become it means satisfaction of his actualisation need.

Eg $\Rightarrow$ when a soldier faces bravely the bullet of enemy he seems to realise the self-actualisation need.

← -- Financial or Non-financial incentives

Monetary or Non-monetary incentives -- →

- Financial incentive | Monetary Incentive

- Incentives which are measured in form of money and paid to employees. These are more powerful for lower level employees.

- Common type of financial incentive are -

1) Pay and allowances → It refers to regular increments in salary every year and grant of various allowances according to the performance of employees.

2) Profit sharing → In this the companies fix a percentage of profit and if the profit exceeds that percentage then the surplus profit is distributed among the employees. It encourage the employees to perform better.

3) Bonus → It is one time extra payment offered to employees on any occasion or annual day of the org. It encourage employees to performing with their best ability.

4) Co-partnership / stock option → Under these incentives schemes, employees are offered company shares at a price lower than the market price. Sharing the profit does not give ownership right to the employees. This creates a feeling of ownership to the employees.

5) Commission → Employees are working under sales department are given commission acc. to the sales volume. It encourage & sales executive to increase the amount of sales.

6) Productivity-linked wage incentives → More wages offered for more productivity. It encourage employees to produce more for earning higher wages.

7) Retirement Benefits → Several retirement benefits such as provident fund, pension and gratuity provide financial security to employees after their retirement. This act as an incentives.

8) Perquisites → These are some special benefits such as car allowance, housing, children education, leave travel, medical etc. These measures help to provide motivation to the employees.

• Non-financial / Non-monetary incentives.

- These incentives can not be calculated in terms of money but provide for psychological and emotional satisfaction to the employees. These are more required to Top level managers.

- Common types of non-financial incentives are -

- 1) Status → It refers to rank, authority, responsibility & prestige related to job. By offering higher status or rank in the org. managers can motivate employees.
- 2) Career advancement opportunity → Managers should provide opportunity to employees to improve their skills and be promoted to the higher level job. It improves the morale of the employee.
- 3) Employee Recognition → It means giving special regard or respect & respect which satisfy the ego of subordinates when employees are appreciated for their good performance. They feel motivated, which influence other employees also.
 - Congratulating the employee for good performance.
 - Installing award or certificate for best performance.
 - Rewarding an employee for giving valuable suggestions.
 - Displaying on notice board.
 - Distribution of T-shirts etc.

4) Job security $\Rightarrow$ Employees want their job to be secure. Job security ensures stability of future income, which motivates people to work with their best ability. However, there is one negative aspect to job security. When people feel they are not likely to lose their jobs, they may not work with their best ability e.g. govt. employees.

5) Employer participation $\Rightarrow$ It means involving employees in decision making. Welcome their suggestions, ask them before assigning job to them. This will create a feeling of belongingness.

6) Organisational climate $\Rightarrow$ It refers to a healthy relations b/w superior and subordinates. A positive approach adopted by managers create better organisational climate whereas negative approach may spoil the climate employees are always motivated in the healthy org. climate.

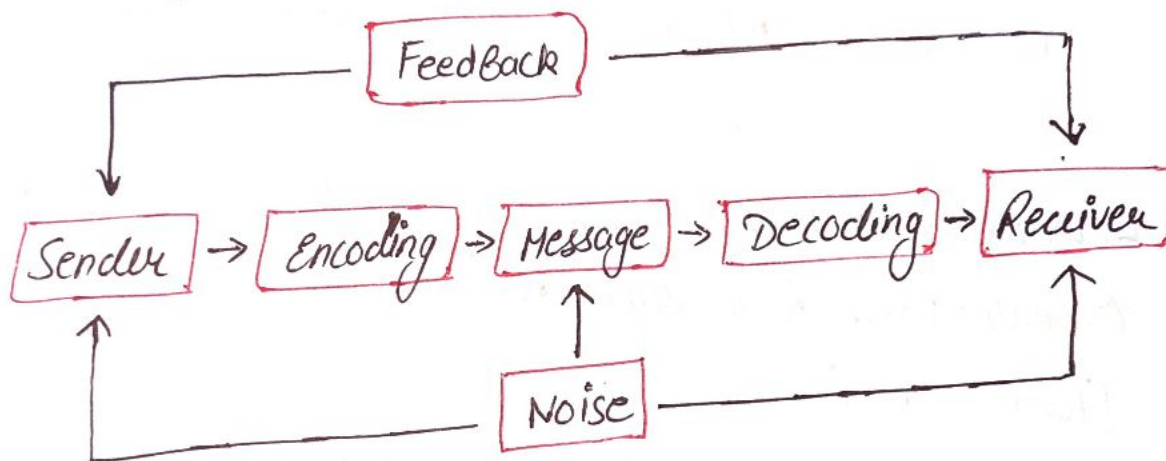

7) Job enrichment / Job autonomy $\Rightarrow$ Job enrichment is concerned with designing jobs. Employees get bored by performing routine job. By offering challenging jobs, autonomy to perform job, interesting jobs, employees get satisfied, they are motivated.

3. Communication

- It can be defined as Transmission of exchange of ideas, messages, information b/w two or more persons by the help of -

- 1) Spoken words
- 2) Written words
- 3) Diagrams, Picture graphs
- 4) Gestures

Communication Process

Types of Communication

1) Formal communication → It refers to the official communication b/w the people who are officially related to each other.

- It pass through impersonal manner, Follow scalar chain generally in written form.
- They talk about fixing responsibility, Task, authority, work load etc...

Features of Formal Communication

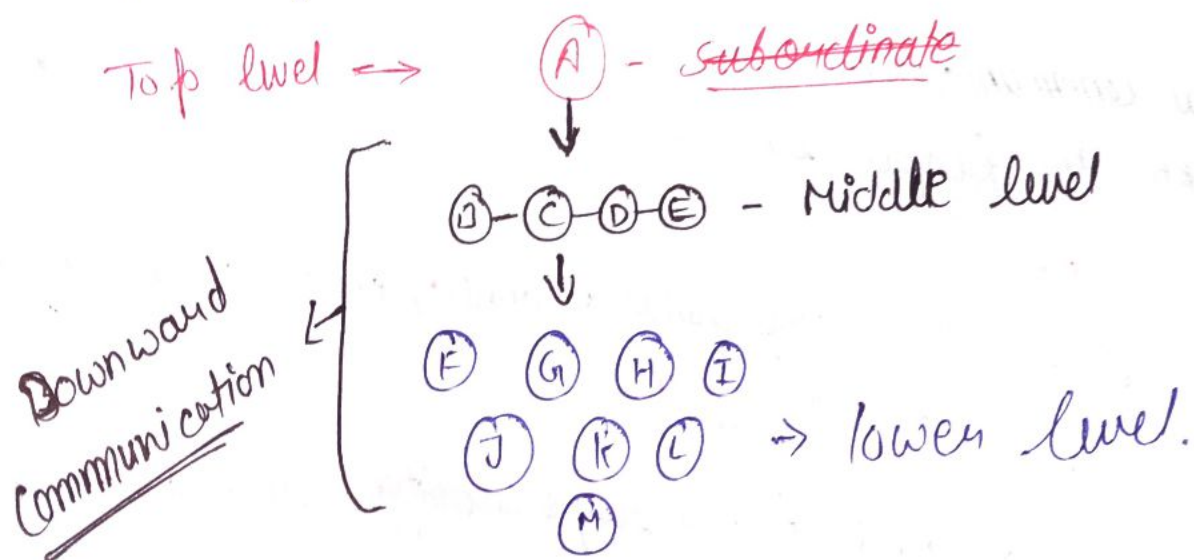

- 1) Goal oriented
- 2) systematic
- 3) source of information
- 4) Impersonal
- 5) Delay in information

Types of formal Communication

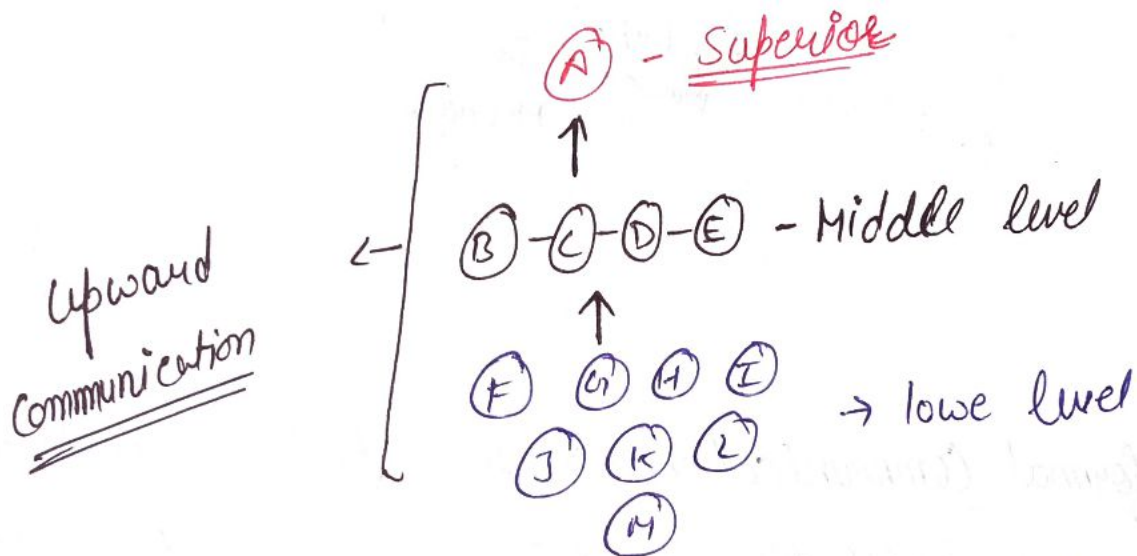

- 1) vertical communication $\rightarrow$ Here communication follows upward and downward and scalar chain is follows.

1.1 - Downward Communication $\rightarrow$ It refers to the flow of communication from superior [top level] to subordinate [lower level].

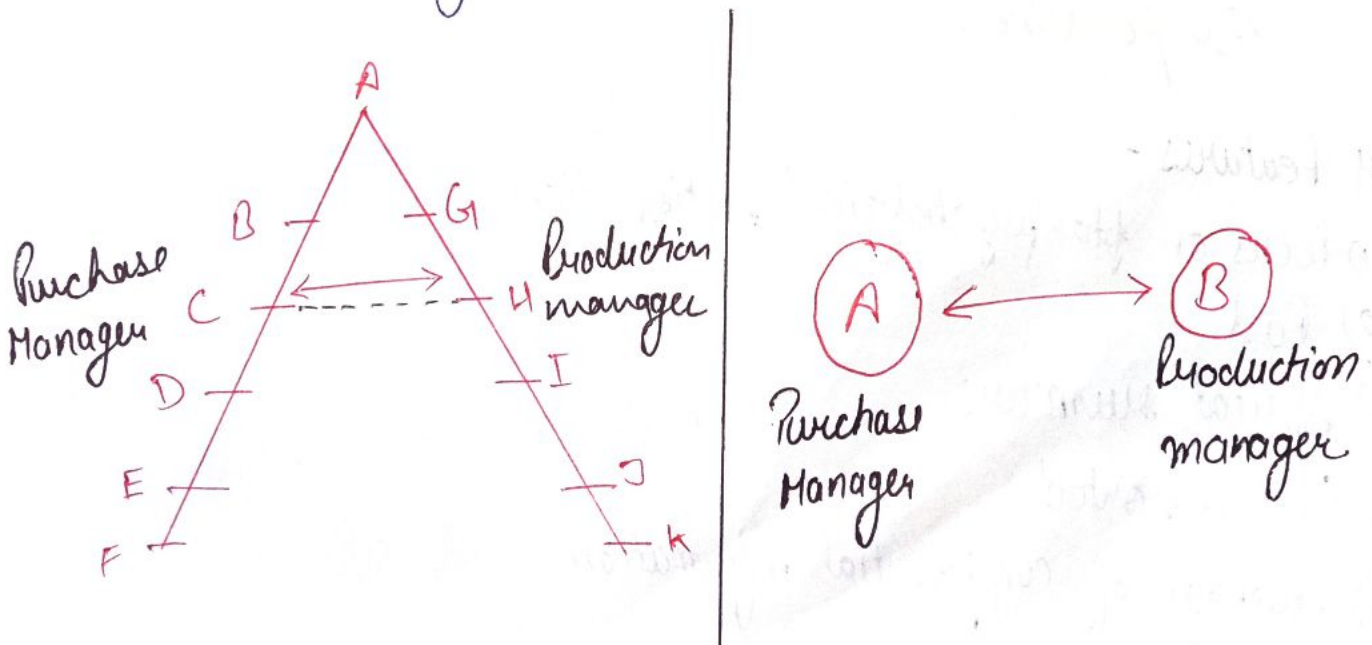

- Sending instructions, Notis, orders and guidelines from Top management to their sub-ordinates.

- 1.2 - Upward communication $\rightarrow$ It refers to the flow of communication from sub-ordinate (lower level) to superior (top level)
- work performance, opinion, grievances, problem of employees, Application of leave, labour union etc.

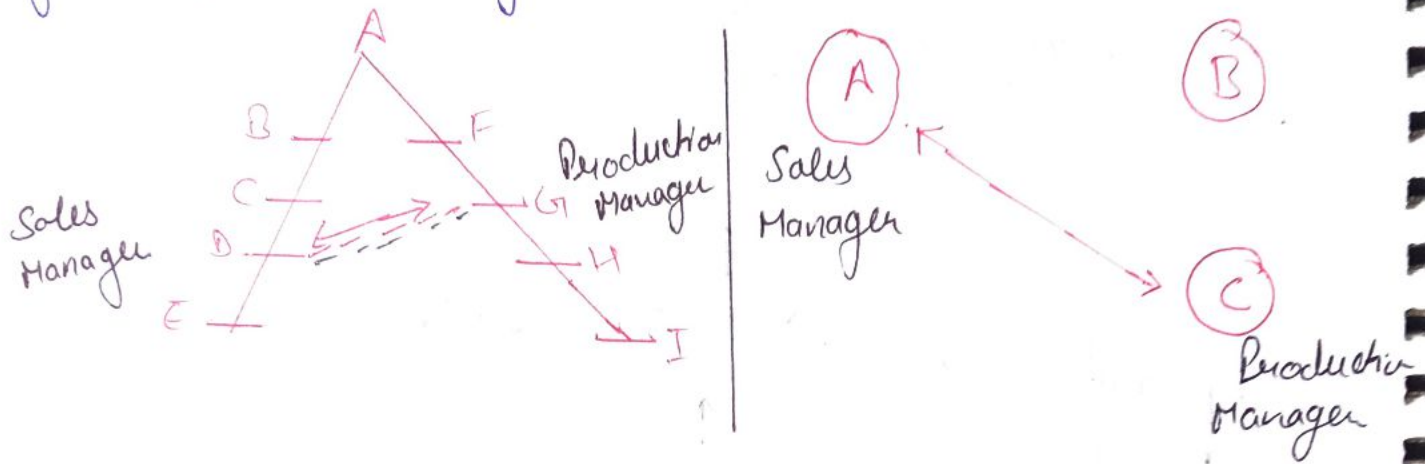

2. Horizontal communication $\rightarrow$ How communication takes place b/w two or more persons working at the same level of authority.
- Eg. purchase manager communicate with production manager.

3. Diagonal communication $\Rightarrow$ How communication takes place b/w the persons working at diff. departments and holding diff. levels of authority.

Eg. The sales man may communicate with production manager

2. Informal Communication $\Rightarrow$ It refers to the communication b/w the people who are not officially related to each other.

- It pass through zig zag manner, spread rumours, psychological satisfaction, fast flow of information etc.
- The network of informal communication is called Grape vine.

Features -

- 1) focus on psychological satisfaction
- 2) Fast
- 3) Spread rumours.
- 4) Get distorted
- 5) Leakage of confidential information.

- Barriers to Effective Communication -

1) Semantic Barriers: concerned with problems and obstructions in the process of encoding or decoding of message into words or impressions.

Semantic barriers are as follows -

- 1) Bodily expressed message
- 2) words with diff. meanings confuses the receiver.
- 3) Faulty translations may transfer wrong messages.
- 4) Unclassified assumptions
- 5) Technical Jargon

2) Psychological Barrier > the state of mind has great influence over the information and its reflection.
As a frightened person may not communicate properly and similarly an angry person may not receive the communication effectively.

- 1) Premature evaluation
- 2) Lack of attention / poor listening may disappoint the employees
- 3) Loss by transmission and poor retention
- 4) Distrust.

3) Organisational Barrier $\rightarrow$ factor related to ~~orgi~~ organisational structure, authority relationship, rules and regulations may act as barrier.

- 1) If organisational policy does not support free flow of information.
- 2) Rules and Regulation
- 3) Status conscious manager may not allow sub-ordinates to express their feelings freely.
- 4) complexity in org. structure result in delay and distortion.

4) Personal Barriers $\rightarrow$ certain personal factor of sender and receiver may influence the free flow of information.

- (i) Fear of challenge to authority may withhold or suppress a particular communication.
- 2) Lack of confidence of superior in his sub-ordinates.
- 3) Unwillingness to communicate. Eg. fear of punishment / demotion.
- 4) Lack of proper incentives stops the sub-ordinates to offer useful suggestions.

Improving Communication Effectiveness

- 1) Clarify the Ideas before communication
- 2) Communicate acc. to the need of receiver.
- 3) Consult others before communicating.
- 4) Be aware of language, tone and content of message.
- 5) Ensure proper feedback, feedback provides opportunity for suggestion and criticism.
- 6) Follow up communication help to remove hurdles, misunderstandings of information given by manager to sub-ordinate.
- 7) Be a good listener
- 8) The parties to communicate must have open mind.
- 9) A message is effective only when it is given completely.

4. LEADERSHIP

- It is the process of influencing the Behaviour of other people so, that they work willingly for the attainment of goals in a given situation. ... Leadership is a psychological process of influencing followers or sub-ordinates and providing guidance to them.

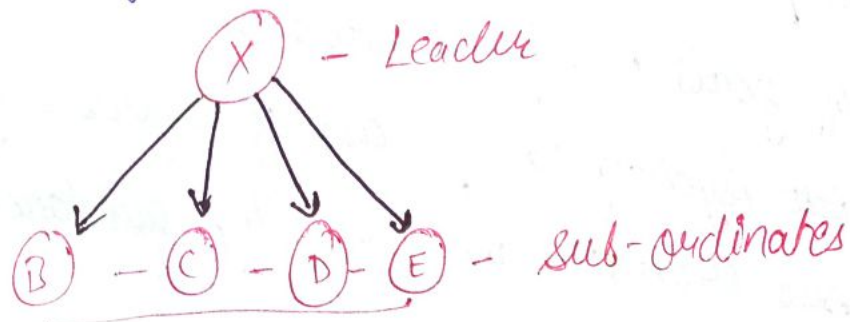

Features of Leadership -->

- 1) It indicates the ability of an individual to influence others.
- 2) It tries to bring change in behaviour.
- 3) It shows interpersonal relationship b/w leader and followers.
- 4) It is to achieve common goal.
- 5) It is a continuous process.

Different types of leadership styles are -

- 1) Autocratic leadership
- 2) Participative / Democratic
- 3) Free rein / Laissez faire leadership.

- 1) Autocratic / Authoritative leadership → An autocratic leader exercises complete control over the sub-ordinates. He centralises power in himself and takes all decisions with consulting the subordinates. He does not delegate authority. The leader gives order and expects the subordinates to follow the unquestioningly. He give reward and put penalty to direct the subordinates.

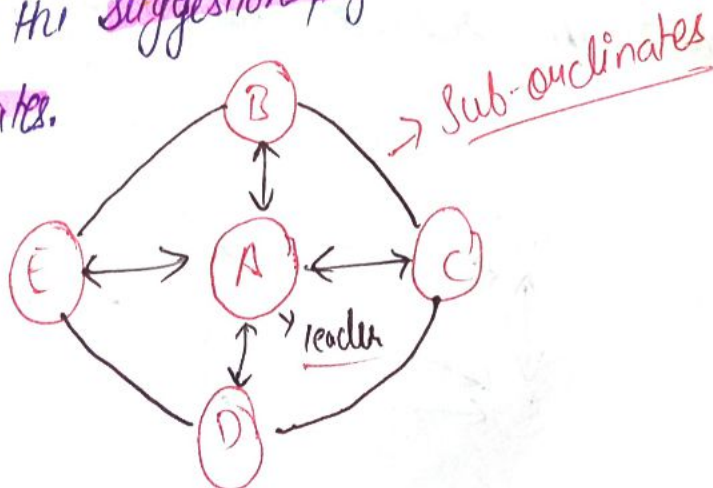

→ Advantages

- Quick decision making
- Provide strong motivation and satisfaction to the leader who dictates terms.
- Less competent sub-ordinates are needed at lower level.
- May bring +ve result when great speed is required.

Disadvantages

- Lead to frustration and low moral among sub-ordinates
- Initiative level of sub-ordinates goes down.
- Potential and creativity of sub-ordinates are not utilized.
- No development of sub-ordinates takes place.

2) Democratic / Participative leader → Leader takes decision in consulting and participation with employees. He delegates and decentralises the authority. Leader follows the opinion of majority. He provides freedom of thinking and expression. He listen to the suggestions, grievances and opinion of the sub-ordinates.

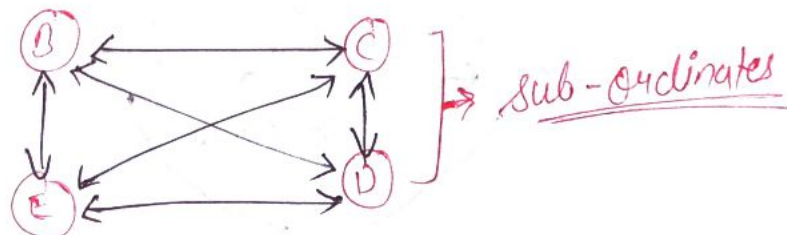

Advantages

- 1) Improves the job satisfaction and morale of employees.
- 2) Improves decision making ability of sub-ordinates.
- 3) Develop +ve attitude.
- 4) Reduce turnover.
- 5) Quality of decision improves.

Dis-advantages

- 1) Time consuming
 - 2) Result in delay
 - 3) It may not yield +ve result when sub-ordinates prefer minimum interaction with the leader.
 - 4) Leader may pass the work to sub-ordinates and abdicate responsibility.
- 3) Free-rein / Laissez faire leadership $\Rightarrow$ this style involves complete delegation of authority so, that sub-ordinates themselves take decision. In this style, leader avoids power, He serves only as a contract to bring information and resources needed by the sub-ordinates.

(A) $\rightarrow$ leader

Advantages

- Positive effect on the job satisfaction and morale of sub-ordinates.
- Max. scope for development of sub-ordinates
- Full utilization of potential and capacity of employees.

Disadvantages

- Sub-ordinates do not get the guidance and support of the leader
- It ignores the contribution of leader.
- Sub-ordinates may work in diff. direction and result in chaos.
